SAFETY ON THE WATER

- Always wear your lifejacket.
- Stay together.
- Do weather checks regularly.
- If in doubt, go ashore.
- DO NOT PADDLE in strong winds and/or breaking waves.

ENVIRONMENTAL CARE

Protect Native Plants and Animals
National parks contain many unique and rare species.

Bring All Rubbish Back
Also bring back any rubbish you find on the beaches or floating in the water.

Use Toilet Facilities Provided
If this is not possible, bury your human waste in a shallow hole well away from water, tracks or campsites.

Do Not Pollute Streams
When washing, take water away from the stream, wash separately and pour water on the ground away from the stream.

Treat All Drinking Water
Either boil, use filters or purifying chemicals.

Seafood is a Limited Resource
If collecting fish or shellfish, take only enough for a small meal. NOT PERMITTED IN THE TONGA ISLAND MARINE RESERVE.

Awaroa Hut to Tataranui	Time: 2-2.5hrs	Distance: 7.1km
Tataranui to Whariwharangi	Time: 3.15hrs	Distance: 9.8km

TONGA ISLAND MARINE RESERVE

All marine life is fully protected. No fishing. No shellfish gathering. Do not disturb seals. Closest permitted approach to island is 10 metres.

North of Tonga Island the coast is more exposed to all wind directions. The headland north of the Wharf Rock should only be kayaked in good conditions. We advise our three day rentals to stay south of the Wharf Rock.

The Mad Mile

Main Route to Marahau from Motueka and Nelson
